

## Job description - Forest planner (PB5)

### Job summary

As Forest Planner, you will develop, write, review and consult on, forest planning matters which ensure that Forestry England remain UKWAS compliant. This work can include the preparation of habitat plans and heritage plans and other supporting management documentation helping ensure the forests and woods of the Forest District are sustainably managed to UKFS standards which deliver the Forestry England strategy. Ultimately the role is to help ensure the forests and woods of the nation's forest are sustainably managed and resilient to future threats.

The Forest Planner works closely with colleagues across the Forest District to review and write ten-year Forest Plans that satisfy business needs & the interests of stakeholders, turning high level policy ambitions into delivery across our nation's forests.

The focus of the Forest Planners work will often be focused on a region within the Forest District working across a number of Beats or areas.

You can expect to spend around one third of your time outdoors, often working on your own. You will usually be expected to manage your own time to maximise efficiency and effectiveness.
